Jun 2020 – May 2021

SKILLS

Technical: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB

Core Skills: Problem-Solving, Data Management, Documentation

Soft Skills: Teamwork, Time Management, Adaptability, Attention to Detail

INTERNSHIP EXPERIENCE

MERN Stack Intern – Techvolt, Coimbatore

4 Months

- Worked on a live Fish E-Commerce Platform serving multiple branches, handling product listings, orders, and customer data.
- Designed and built a QR code-based customer feedback system to collect and track employee service ratings branch-wise.
- Set up automated email alerts for management when an employee receives repeated low ratings, improving service monitoring.
- Collaborated with the team to develop Admin, Branch, and User modules with controlled access for each type of user.

PROJECT

Smart Book Administration System

Technologies: React.js, Node.js, Express.js, MongoDB, JWT Authentication

M.Sc. IT Project

- Developed a complete web-based system to manage library operations such as book records, user accounts, and borrowing history.
- Created four access levels (Admin, Librarian, Staff, Student) with different permissions and responsibilities for each role.
- Built a secure login system using JSON Web Tokens (JWT) to ensure only verified users can access the application.
- Included automatic fine calculation for late book returns by students, and a downloadable report generation feature.
