Core Skills: Problem-Solving, Data Management, Documentation

Soft Skills: Teamwork, Adaptability, Attention to Detail

Tools: Git, GitHub, VS Code, Vercel, Render

PROJECTS & TRAINING

MERN Stack Training – Techvolt Software, Coimbatore

4 Months

- Completed hands-on MERN stack training and developed a Fish E-Commerce Platform as a training project covering product listings, orders, and customer data management.
- Built a QR code-based customer feedback module and automated email alert system as part of the project.
- Designed Admin, Branch, and User role modules with controlled access.

Smart Book Administration System

M.Sc. IT Project

Technologies: React.js, Node.js, Express.js, MongoDB, JWT Authentication

- Developed a complete web-based system to manage library operations such as book records, user accounts, and borrowing history.
- Created four access levels (Admin, Librarian, Staff, Student) with different permissions and responsibilities for each role.
- Built a secure login system using JSON Web Tokens (JWT) to ensure only verified users can access the application.
- Included automatic fine calculation for late book returns by students, and a downloadable report generation feature.
